in hospital readmissions

**Mission-critical healthcare programs face constant pressure to improve health outcomes, ensure access to care, and enhance care quality.**

Acentra Health helps organizations meet these challenges with innovative solutions and deep public sector healthcare expertise.

Our Care Management Solution, part of our continuum of care suite, enables personalized and proactive care experiences for your beneficiaries and closes care gaps.

### The Acentra Health Continuum of Care Suite

## Future-Proof Technology

### Comprehensive & Flexible

Enhance quality of care through personalized care plans

### Flexible, Cloud-Based

HIPAA, NIST, SOC2 Type 2, and ISO 27001:2013 compliant

### Agile, Modular Configuration

Continuous modernization for rapid and ongoing updates to meet current and future needs

### Automation-Driven

Business rule processing, automated workflows, and integrated analytics and dashboards

### Performance Optimization

Actionable insights with advanced analytics and reporting dashboards to improve decision-making and outcomes

## Our Care Management Solutions

Elevate care experiences for high-risk and high-spend beneficiaries to improve outcomes and value.

### Care Coordination

Facilitate cross-disciplinary information-sharing to create a full view of beneficiary health.

### Utilization Management

Ensure efficient use of resources by reviewing and approving necessary services and treatments.

### Case Management

Deliver personalized support for high-risk beneficiaries to optimize healthcare delivery and outcomes.

### Pharmacy Management

Manage medication and ensure safe, effective, and cost-efficient use of pharmaceuticals.

### Absence Management

Track employees' leave and absences to ensure compliance and support employee well-being and productivity.

### Employee Assistance Program

Offer confidential support to employees dealing with personal or work-related challenges.
